MARTIAN SALES, INC.; JOPEN, LLC, A TEXAS LIMITED LIABILITY COMPANY; JOHNSON FOODS, LLC, A WYOMING LIMITED LIABILITY COMPANY; LP IND., LLC, A WYOMING LIMITED LIABILITY COMPANY; CAG HOLDINGS, LLC, A WYOMING LIMITED LIABILITY COMPANY; RMH HOLDINGS, INC., A WYOMING CORPORATION; ABC INSURANCE COMPANY AND JOHN DOES 1-4.	

Video Deposition of ALLEN L. DOLLAR, MD, FACC, FACP, taken on Friday, February 6, 2026, via Zoom videoconference.

A Correct.
Q Again, you don't think THC had anything to do with it?
A That's correct.
Q All right. And you think those two are the likely causes of the arrhythmia that led to her death?
A Yes.
Q However, as we sit here today, given the literature and the lack of literature and the lack of study, isn't it true you cannot tell me whether or not mitragynine or kratom played a role in her death?

MS. CONGER:

Object to form.

THE WITNESS:

What literature there is that raises concern, all involve serum levels of mitragynine 10 times or more than what was found in Harmony. So can I say for a fact that, at 150, that there was -- that it is impossible that it played a role? No. We don't -- we do not have data, to your point, to say it's impossible.

BY MS. HICKMAN:
Q Sure.
A But it seems very unlikely, if this stuff is potentially harmful, that, given the amount of this stuff that's out there and the number of people who are potentially have suffered harm, the levels have all been substantially higher. That's the basis of my opinion.
Q Understand. Just to make this a little sharper, you cannot rule out that kratom, along with Phenergan and Benadryl, created an arrhythmia that caused Harmony's death. Is that fair?
MS. CONGER:
Object to form. Mischaracterizes opinion and asks for answers.
THE WITNESS:
If the definition of "rule out" means zero possibility, I cannot state that.
BY MS. HICKMAN:
Q And that's what I mean. I completely understand that it is not your opinion that that's what happened. I read your report.
